ClearviewA Pressure Care and Positioning Gel

Prevention is better than cure

PRESSURE SORES

A Pressure sore or bedsore, are injuries to the skin and/or underlying tissue resulting from prolonged pressure on the skin. It most often develops on skin that covers bony areas of the body such as the heels, ankles, hips and the tail bone.

PRESSURE NEUROPATHY

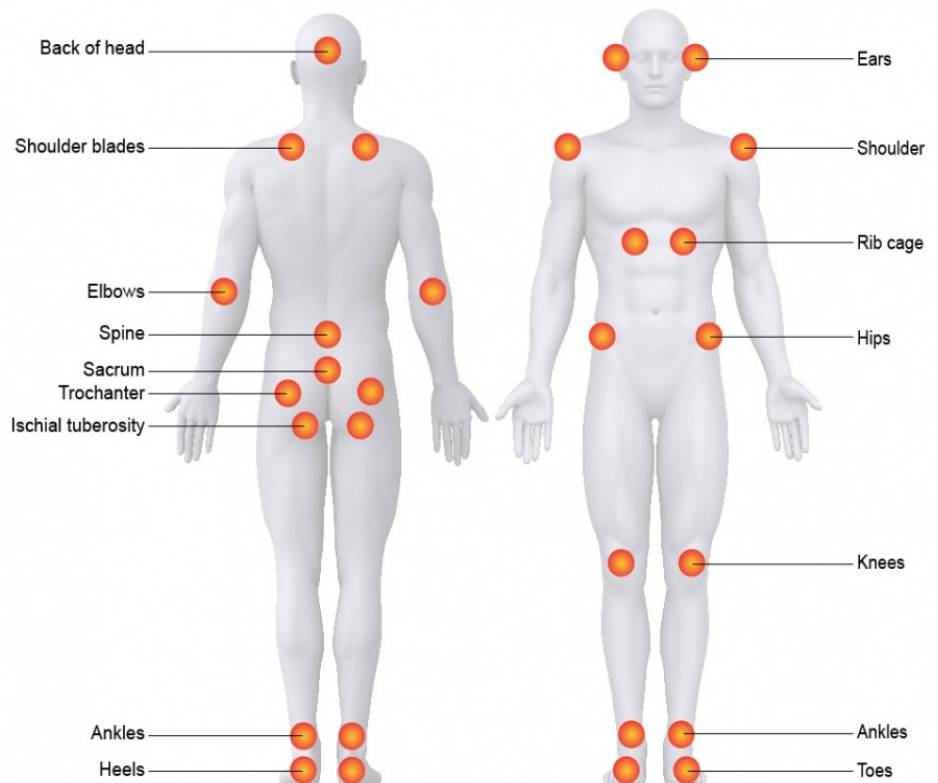

In pressure neuropathy there is excessive pressure on a nerve root or a peripheral nerve leading to ischemia (not enough oxygen due to poor blood supply). If the pressure continues, fibrosis tends to develop.

WHO IS AFFECTED

All theatre patients can be affected due to level of their impaired mobility. Surgical patients still account for 20% to 30% of all pressure injuries.

AREAS MOSTLY AFFECTED ARE:

- Head
- Elbows
- Sacrum
- Heels
- Shoulders
- Hips
- Buttocks
- Knees

Prevention is better than cure. With the correct measures, pressure sores can be prevented. Let us help you to ensure the best care for your patients

THREE PRIMARY CONTRIBUTING FACTORS FOR BEDSORES ARE:

- **Pressure.** Constant pressure on any part of your body can lessen the blood flow to tissues. Blood flow is essential to delivering oxygen and other nutrients to tissues. Without these essential nutrients, skin and nearby tissues are damaged and might eventually die. For people with limited mobility, this kind of pressure tends to happen in areas that aren't well-padded with muscle or fat and that lie over a bone, such as the spine, tailbone, shoulder blades, hips, heels and elbows.
- **Friction** occurs when the skin rubs against clothing or bedding. It can make fragile skin more vulnerable to injury, especially if the skin is also moist.
- **Shear** occurs when two surfaces move in the opposite direction. For example, when a bed is elevated at the head, you can slide down in bed. As the tailbone moves down, the skin over the bone might stay in place — essentially pulling in the opposite direction.

TABLE PADS

Table pads provide protection over the entire surface area of the operating table and are recommended for use with patients in all positions.

The pads are flexible, soft, comfortable and versatile and distribute weight evenly over the entire surface area

AP 303	50cm L x 50cm W x 1cm H
AP 303 - 1.5	50cm L x 50cm W x 1.5cm H
AP 402	183cm L x 50cm W x 1cm H
AP 402 - 1.5	183cm L x 50cm W x 1.5cm H
AP 403	117cm L x 50cm W x 1cm H
AP 403 - 1.5	117cm L x 50cm W x 1.5cm H
AP 410 W/C	100cm L x 50cm W x 1.5cm H

SUPINE

HEAD, NECK & FACE

CLOSED HEAD RING

Protects the head, face, neck and ears during all types of surgery

AP 001
9cm Ø x 2cm H

AP 002
14cm Ø x 3.5cm H

AP 003
20cm Ø x 4.5cm H

SUPINE HEAD REST

Ideal for positioning the patient during eye surgery and other supine procedures. Designed to relieve pressure on ears, neck and back of the head

AP 112
27cm L x 24cm W x 9cm H

ARM & ELBOW

ARMBOARD PAD

Armboard pad provides excellent pressure relief during various surgical procedures

AP 071
40cm L x 12.5cm W x 2cm H

AP 072
60cm L x 12.5cm W x 2cm H

ARM & ELBOW

CONTOURED ARMBOARD PAD

Designed to provide added support and stability

AP 077

52cm L x 15cm W x 5.5cm H

ANKLE, HEEL & FOOT

COMFORT HEEL CUPS WITH STRAP

This product provides support for the heels especially during recovery

AP 034

17cm L x 23cm W x 1.3cm H

HEEL SUPPORT PAD

Light weight heel pads provide maximum comfort and support for heels

AP 031

20cm L x 11cm W x 7cm H

BODY

UNIVERSAL PATIENT POSITIONER

These positioners are suitable for safe and effective positioning during all surgical procedures

AP 093

33cm L x 13cm W x 6cm H

AP 094

36cm L x 12.5cm W x 7cm H

AP 095

25cm L x 12.5cm W x 5cm H

DOMES POSITIONER

The dome positioner is designed for use during surgery to protect the patient while in the prone or lateral position

AP 051

35cm L x 15cm W x 7.5cm H

PRONE

HEAD, NECK & FACE

PRONE HEAD REST

Unique design provides excellent support and stability and allows the patients head to comfortably rest face down with respiratory tubes in place,

AP 022

28cm L x 23cm W x 14.5cm H

ARM & ELBOW

ARMBOARD PAD

Armboard pad provides excellent pressure relief during various surgical procedures

AP 071

40cm L x 12.5cm W x 2cm H

AP 072

60cm L x 12.5cm W x 2cm H

CONTOURED ARMBOARD PAD

Designed to provide added support and stability

AP 077

52cm L x 15cm W x 5.5cm H

BODY

CHEST ROLL

Chest rolls, with flat bottom, provides excellent support and stability

AP 041

30cm L x 15cm W x 10cm H

AP 042

40cm L x 15cm W x 10cm H

AP 043

50cm L x 15cm W x 10cm H

DOME POSITIONER

The dome positioner is designed for use during surgery to protect the patient while in the prone or lateral position

AP 051

35cm L x 15cm W x 7.5cm H

RELTON FRAME PAD SET

This 4-piece set is designed to maintain the patient spinal position during surgery. They provide exceptional protection against pressure sores and nerve or tissue damage.

AP 111

19cm L x 17.5cm W x 10.5cm H

* Gel pad thickness 1.5cm

WILSON FRAME SET

The Wilson Frame is designed to provide the same support that metal frames do, without the bulky weight and high cost. The Wilson Gel Pad fits on the Wilson Frame perfectly, and is secured on the frame with velcro and straps.

AP 212

72.5cm L x 17.5 cm W x 2cm H

AP 213

60cm L x 49cm W x 15.5cmH

LATERAL

HEAD, NECK & FACE

OPEN HEAD RING

Designed to support a patient's head and face during surgery with easy access for surgical intubation

AP 011
9cm Ø x 2cm H

AP 012
14cm Ø x 3.5cm H

AP 013
20cm Ø x 4.5cm H

ARM & ELBOW

CONTOURED ARMBOARD PAD

Designed to provide added support and stability

AP 077
52cm L x 15cm W x 5.5cm H

ARMBOARD PAD

Provides excellent pressure relief during various surgical procedures

AP 071
40cm L x 12.5cm W x 2cm H

AP 072
60cm L x 12.5cm W x 2cm H

ANKLE, HEEL & FOOT

COMFORT HEEL CUPS WITH STRAP

This product provides protective padding for the heel when the patient is supine or lateral positions

AP 034

17cm L x 23cm W x 1.3cm H

BODY

LATERAL POSITIONER

Permits a safe, quick and easy transition from supine to lateral. It is designed to accommodate both the shoulder and the upper arm.

AP 101

71cm L x 50cm W x 10cm H

PATIENT POSITIONING BELT

Provides patient safety, stability and tissue protection during surgery

AP 601

51cm L x 9cm W x 0.8cm H

LITHOTOMY

HEAD, NECK & FACE

CLOSED HEAD RING

Protects the head, face, neck and ears during all types of surgery

AP 001
9cm Ø x 2cm H

AP 002
14cm Ø x 3.5cm H

AP 003
20cm Ø x 4.5cm H

SUPINE HEAD REST

Designed for patient in supine position to relieve pressure on ears, neck and back of the head

AP 112
27cm L x 24cm W x 9cm H

ARM & ELBOW

CONTOURED ARMBOARD PAD

Designed to provide added support and stability

AP 077
52cm L x 15cm W x 5.5cm H

ARM & ELBOW

ARMBOARD PAD

Armboard pad provides excellent pressure relief during various surgical procedures

AP 071

40cm L x 12.5cm W x 2cm H

AP 072

60cm L x 12.5cm W x 2cm H

LEG

CRUTCH STIRRUP PAD

Crutch stirrup pads are designed to fit both Goepel devices and various types of stirrups

AP 802

40cm L x 25cm W x 1cm H

SPECIALITY PADS

PERINIAL ROD PAD

Provides pressure relief in the perineal area when under traction

AP 311

46cm L x 21cm W x 0.8cm H

SACRAL PROTECTION PAD

This pad effectively reduces pressure and shear at the sacral area

AP 054

14cm L x 20cm W x 1.3cm H

ULNAR / BRACHIAL NERVE PROTECTOR

Essential for providing protection to the sensitive areas of the elbows and arms

AP 310

38cm L x 12cm W x 0.8cm H

AP 311

46cm L x 21cm W x 0.8cm H
